## The Wisser 401(k) Process

### Our Process

1. Discovery
2. Set-up & On-boarding
3. Plan Presentation & Enrollment
4. On-going Employee Education
5. Plan Review & Monitoring

Our process begins with discovery. We sit down with you and discuss your needs, review any current plan in place, and identify goals.

We walk you through the set-up and on-boarding process with The Online 401k. We help

you develop a plan document, summary plan description and investment policy statement.

Once the plan is in place, we start employee education. We begin with a welcome letter/email to introduce the plan and announce a presentation meeting, and provide an opportunity to sign up for individual meetings.

At the presentation meeting, we outline plan features and benefits, answer questions, and discuss the enrollment link provided by The Online 401k.

We then meet individually with each participant to enroll in the plan, choose investment options, and answer any questions specific to that individual.

On-going, we come in on a semi-annual basis or on demand to present lunch and learn sessions to increase employees' financial knowledge.

On an annual basis or on demand, we conduct plan reviews with you, the plan sponsor, to make sure the plan continues to meet your and your employees' needs. This enables us revise the plan as necessary in a timely manner.

## Investment Options and Model Portfolios

We share your responsibility to provide quality investment choices to your participants. While our firm sees long term value in using low cost index funds, we can also provide mutual funds that may be in your current plan. Wisser Wealth will also provide our custom target risk index model portfolios to allow your participants to access professional money management at no additional cost.
